- UIUX Designer of Sejahtera Seed
- Web Developer of Al-Imam Islamic School (AISBA)
- Assistant of UIUX Mentor in Remoteworker Id
- UIUX Designer of remoteworker.id
- Writer on Design Bootcamp Community on Medium

Skills

Figma Expert : Mastering UI design, prototyping, and component-based design.

Framer : Creating high-fidelity interactive prototypes

PHP & MySQL : Implemented authentication, CRUD for student/teacher data, and database management.

Web Hosting & Deployment :

- Proficient in cPanel: domain management, DNS configuration, email setup, file manager, and SSL
- Deployed PHP-based web projects with custom domain integration (e.g., aisba.sch.id)
- Experience using phpMyAdmin for database import/export and configuration

Projects

ScoreHub App

March 2024 – March 2024

This design has been uploaded on my dribbble as a side project. Scorehub is an app that we can see score of football match without watch the match.

Sejahtera Seed App

March 2024 – June 2024

Designing an app for my father's company, the prosperous seed app. This design focuses on ecommerce that allows users to buy what my father sells and can also see what products are in the application.

aisba.sch.id

Aug 2024 – Sep 2024

Part of UI/UX Designer & web Developer for Al Imam Islamic School website. Using Figma for design and PHP programming language for backend. As well as using HTML, CSS, and JS Native on the Frontend.

remoteworker.id

Oct 2024 – Present

Create designs from user research & design systems, then create high fidelity UI Design wireframes. In addition to creating a UI display for the landing page, I also created a display for the dashboard for remoteworker.id

irpan-portfolio.framer.website

Aug 2024 – Feb 2025

A personal website that shows what projects I have created and as a digital portfolio that has been deployed from 2024. Users can also hire me from the website that I created.

Social Media Designer

Jan 2025 – Present

Creating social media design for Instagram @kampusrwid, my team and I have created more than 20 contents for this ig and will continue until my contract expires.

irfanfahrurohman.framer.website

Mar 2025 – Present

A personal website that shows what projects I have created and as a digital portfolio that has been deployed from 2024. Users can also hire me from the website that I created.
